

TABLE OF CONTENTS

Previous proceedings	i
Preface	ii
Table of Contents	iii
Opening Remarks	vi
<i>L.K. Chiang, Gallatin Steel Symposium Chairman</i>	
Keynote Address	1
<i>Mark Millett VP & General Manager Flat Rolled Division Steel Dynamics Inc.</i>	

SESSION 1 - OPERATIONS I

Medium Slab Technology - The Bridge Between Conventional and Thin Slabs - Principles and Operational Results	6
<i>Josef Watzinger, Karl Moerwald and Anton Wagner, Voest Alpine Industrieranlagenbau GmbH, Austria</i>	
Improved SEN Life and Reliability	23
<i>Mark Twentyman, Algoma Steel Inc., Canada</i>	
The New EZZ Flat Steel Minimill for Flat Products (Egypt)	35
<i>F. Ibrahim, Ezz Industries, Egypt G. Megahed, EFS, Egypt R. Borsi, F. Stella and C.P. Piemonte, Danieli Wean United, Italy</i>	

SESSION 2 - OPERATIONS II

Studies for the Improvement of the Secondary Cooling System of CSP Thin Slab Casters	47
<i>M.A. Herrera G., R. Santos P., and R. González de la P., HYLSA, S.A. de C.V., México, A.H. Castillejos E., F.A. Acosta G., CINVESTAV - Unidad Saltillo, México E.P. Gutiérrez M., Rensselaer at Hartford, USA</i>	
Thin Slab Caster at Thangshan Iron & Steel Group	59
<i>R. Borsi, A. Carboni, G. Paulon, and C.P. Piemonte, Danieli Wean United, Italy Shi Dongri and Yang Chunzhen, Thangshan Iron & Steel Group, P.R. China</i>	
Advances in the Operation of The Mittal Steel South Africa (Saldanha) Thin Slab Caster	68
<i>Jurie van Wyk, Andre Dreyer, Francois Landsberg and Pierre Steyn, Mittal Steel South Africa (Saldanha Steel), South Africa</i>	
Application of Highly Efficient Production Techniques at CSP Plant of Baotou Steel	77
<i>Si Yongtao, Li Degang, He Jianzhong and Yang Limin Baotou Iron & Steel (Group) Co., P.R. China He Jianzhong, University of Beijing Science and Technology, P.R. China</i>	

Plant-Wide Product Quality System for Thin Slab Casting in CSP	88
<i>Markus Reifferscheid and Michael Bruns,</i> <i>SMS Demag AG, Germany</i>	
<i>Juan Ignacio Langara and Javier Miniambres Ovejero</i> <i>ACB, ARCELOR Group, Spain</i>	

General Discussion	97
---------------------------------	----

SESSION 3 - TUNDISH AND MOLDS I

Benefits of Profiling the Castable Backup Lining in Thin Slab Casting Tundish	99
<i>Donald R. Zacharias, Eric P. Wotsch and John A. Morris, Foseco, USA</i>	

Development and Application of Grade Transition Models for the Improvement of Prime Yield at Gallatin Steel	105
<i>L. K. Chiang, Greg Mitchell, and Rick Elder,</i> <i>Gallatin Steel Company, USA</i>	

Minimization of Hybrid Steel Production During Grade Inter-Mixing by Improved Tundish Design and On-line Optimization, Prediction and Tracking	121
<i>L.J. Heaslip, J.D. Dorricott, J. Richaud, and J. P. Rogler,</i> <i>Advent Process Engineering, Inc., Canada</i>	

The Development and Evaluation of a New Generation of No Free Carbon Continuous Casting Fluxes	131
<i>Jorge J. Macho, Glenn Hecko, Brandi Golimowski</i> <i>and Michael Frazee</i> <i>Stollberg, Inc., USA</i>	

Mold Powder Attributes	147
<i>Dan Larson, FMP, Inc., USA</i> <i>(Paper being presented by John Grunewald, FMP, Inc.)</i>	

General Discussions	157
----------------------------------	-----

SESSION 4 - TUNDISH AND MOLDS II

Recent Advances in Mold Technology	161
<i>Chad B. Donovan, William H. Emling, Michael R. Badger</i> <i>and James B. Sears Jr.</i> <i>Millcraft SMS Services, USA</i>	

North Star BlueScope Steel Quality and Productivity Improvements after Conversion from a 90mm to a 100mm Slab Thickness	176
<i>J. Weglo, C. Miller, C. Davis and J. Ruf,</i> <i>North Star BlueScope Steel, USA</i>	

Advanced Funnel Mould (AFM) for Thin Slab Casting: First Results	223
<i>H. - G. Wobker, G. Hugenschuett and D. Kolbeck,</i> <i>KM Europa Metal AG, Germany,</i> <i>I. Bakshi, KME America Inc., USA</i>	

General Discussions	237
----------------------------------	-----

SESSION 5 - ALLOY DEVELOPMENTS

Advanced CSP® Casting Technology for High-Quality Steel Grades	240
<i>Jürgen Müller, Wolfgang Hennig and Christian Bilgen, SMS Demag AG, Germany</i>	
Optimization of High Strength (HS) Products Made by Thin Slab Technology	251
<i>Michael Korchynsky, Stracor, Inc., USA</i>	
Processing of Microalloyed Steel Grades on CSP Plants	262
<i>Karl-Ernst Hensger, SMS Demag AG, Germany Luis A. Leduc Lezama, Hylsa, México Fulvio Siciliano, Companhia Brasileira de Metalurgia e Mineração (CBMM), Brazil</i>	
The Development of High Strength Steels for Thin Slab Casting	277
<i>Peter S. Mitchell, Vanitec, UK</i>	
The Development of New Steel Grades and Products: Casting and Rolling of API X70 Grades for Arctic Applications in a Thin Slab Rolling Plant	292
<i>Gamal Megahed and S.K. Paul, Ezz Flat Steel (EFS), Egypt Andrea Carboni, Alessandro Pigani and Carlo P. Piemonte, Danieli Wean United, Italy (Paper being presented by Renato Zagatti, Danieli Wean United)</i>	
General Discussions	301

SESSION 6 - ALLOY AND STRIP DEVELOPMENTS

Microstructure Evolution of Al-Killed Low Carbon Steel and Microalloyed Steel During Thin Slab Casting and Rolling	305
<i>Liu Qingyou, Yang Caifu, Liang Xiaokai, Yang Xiaojun, Sun Xinjun, Tian Zhiling and Gan Yong, Central Iron and Steel Research Institute, National Engineering Research Center for Advanced Steel Technology, P.R. China</i>	
Potential and Options of Arvedi Steel Technology (AST) for Value-Added HR Flat Steel Products	319
<i>Giovanni Arvedi and Federico Mazzolari, FINARVEDI Lucca Villa and Corrado Rovelli, VA IMPIANTI Herbert Durnig and Georg Windner, Voest Alpine Industrieranlagenbau GmbH, Austria</i>	
The Castrip® Process – Recent Operational Experiences at Nucor Crawfordsville’s First Commercial Strip Casting Facility	339
<i>Peter Campbell, Wal Blejde and Rama Mahapatra, Castrip LLC, USA Gerry Gillen, Nucor Steel, USA (Paper being presented by David Sosinsky, Nucor – Indiana)</i>	
General Discussions	352
Open Forum Discussion, Chaired By John Bell.....	356
<i>General Manager, Steelmaking Technologies Nucor Steel (Berkeley)</i>	
Closing Remarks, L.K. Chiang, Gallatin Steel.....	366
<i>Symposium Chairman</i>	
List of Registrants.....	367
