Volume II Table of Contents

AISTech 2010-Volume II

CONTINUOUS CASTING

Slab Improvements and More

Analysis of Ti-, Mg- and Zr-bearing Inclusions in Ultra-low and Low Carbon Steels	1
.....	
S.R. Story, N. Gupta, G.S. Casuccio, M.S. Potter	
Technological Upgrades of Slab Casting Plants: The Danieli Davy Distington Experience for Plant Renovations and Performance Improvements	11
.....	
C.P. Piemonte, J. Lester, B. Kozak	
Slab Caster Revamping—The Approach to Excel in the Market	23
.....	
O. Schulz, K. Engel, M. Haslinger, F. Derflinger	

CONTINUOUS CASTING/METALLURGY — STEELMAKING AND CASTING

Slab — Impact Slivers and Non-Mets Via Nozzle/Mold

Improvement of the Periodical Mold Level Fluctuation in a Slab Caster and Relevant Sliver Defects on Hot-rolled Coils	35
.....	
K.-W. Huang, M.-H. Chen, C.-H. Hung, T.-F. Yeh, T.-C. Cheng	
Nozzle Design for ArcelorMittal Dofasco's No. 1 Continuous Caster for Minimizing Sliver Defects	41
.....	
M.M. Yavuz, J. Sengupta	
Optimization of a Submerged Entry Nozzle Design to Reduce Nonmetallic Inclusions in Line Pipe Steel	53
.....	
B.R. Forman, M.M. Yavuz, T.H. Tsai, J.A. Thacker	
Effects of FC Mold on Slab and Final Product Qualities at Low Throughputs	63
.....	
J. Song, H. Yang, X. Leng, J.-E. Eriksson, H. Hackl	

Slab — Heat Transfer Technology — Improvements

Experimental Study on Heat Transfer Behavior Through the Mold Flux Film Between the Solidifying Shell and Mold	71
.....	
S. Mineta, T. Kajitani, H. Yamamura	
A Novel Steady-state Technique for Measuring the Heat Extracted by Secondary Cooling Sprays	81
.....	
C.A. Hernández, A.H. Castillejos, F.A. Acosta, X. Zhou, B.G. Thomas	
The Sophisticated Air Mist Nozzle for Secondary Cooling of the Continuous Caster	93
.....	
S. Kubori, N. Kaguchi	
Optimization of Surface Quality Through Mold Thermal Monitoring	105
.....	
S. Carless, A. Westendorp, A. Kamperman, J. Brockhoff	
Effect of Melting and Casting Parameters on the Hot Ductility Behavior of Nb-bearing Beams, Billets and Slabs	115
.....	
S.G. Jansto	
The Effect of Hydrogen on Mold Heat Removal in Continuous Casting	127
.....	
T.J. Piccone, S.M. Smith	

Slab — Brake Technology and Modeling and New Roll Concepts

Water Modeling of Stirring and Braking Processes in a Slab Caster Mold	135
.....	
H. Yang, F. Tehranchi, J.-E. Eriksson, J. Song	
Development of Self-braking Nozzle for Steel Slab Continuous Casting Process	147
.....	
L. Zhang	
Increasing Casting Speed Without Mold Level Hunting Risk Using Switching Control	161
.....	
T. Passenbrunner, P. Ortner, L. *del Re, P. Colaneri	
Improving Centerline Segregation Control on X70 Products	175
.....	
X. Chen, S. Abraham, G. Franco, J. Asante, C. D'Souza, K. Dunnett	
Correlation Between F-value and Sliver Index for Ultra-low Carbon Steel Grades at ArcelorMittal Dofasco's No. 1 Continuous Caster	181
.....	
J. Sengupta, E. Dillon, J. Dixon	
The Nature of Internal Defects in Continuously Cast Steel and Their Impact on Final Product Quality	193
.....	
R. Pierer, C. Bernhard	

HOT SHEET ROLLING

Hot Mills — New Developments and Modernizations

Strategies for Flexible Hot Mill Modernizations — Concepts for Modernization and Extension of Hot Strip Mills	205
.....	
R. Burger, R. Schuster	
Modernization of Hot Strip Mills — Concepts, Implementations and Results	219
.....	
S. Krämer, S. Berger, W. Fuchs	
Arvedi ESP Endless Strip Production First Thin Slab Endless Casting and Rolling Results	231
.....	
G. Arvedi, F. Mazzolari, A. Jungbauerl, G. Hohenbichler, G. Holleis	
Adding Value to the Hot Rolled Coil Business at Burns Harbor by Reducing the Number of Unplanned Roll Changes While Sharing Technical Experiences on the ArcelorMittal Group	241
.....	
A.L. Costa, T.M. Mayrosh, F.R. Gonzalez	

HOT SHEET ROLLING/ROLLS

Hot Mills — Rolls and Lubrication

Work Roll Temperature and Thermal Crown Measurement to Improve Roll Cooling Efficiency	253
.....	
M.B. Assar, B.J. Warnock, J.A. Cox, A.F. Costa, J.T. Sims, W.E. Mellander	
SIROLL HM Work Roll Lubrication for Electrical Energy Reduction and Strip Surface Improvement	261
.....	
A. Seilinger, R. Schuster, F.-X. Schmoller, G. Grasser	
Reducing Carbon Footprints with Green Hot Mill Lubricants	269
.....	
J.E. Murphy, R. Wu	
HSS Work Rolls for Hot Mill Finishing Stands: Keys to Success	279
.....	
S. Mario	

HOT SHEET ROLLING/COMPUTER APPLICATIONS

Information Technology for Hot Strip Rolling

Productivity Optimization at Duferco Farrell's 60" Hot Strip Mill	293
.....	
R.N. Bilkie, E.P. Horan	
Bar Width Change in Finishing Stands of the Hot Strip Mill	309
.....	
E. Nikitenko	
Mill Level 2 Model in Improvement of Product Quality and Productivity	317
.....	

B. Li

Quality Performance Report Improves Mill Operation 327

W. Filipczyk, J. McMillen

COLD SHEET ROLLING/ROLLS

What If? The Future of Hexavalent Chromium Part I

Use of High Chrome Rolls in Cold Mills 339

R. Schleiden, J. Ballani

Implementation of In-service Key Parameters of HSS Work Roll Grade Dedicated to Advanced Cold Rolling 347

C. Gaspard, C. Vergne, D. Batazzi, T. Nylen, P.H. Bolt, S. Mul, K.M. Reuver

Spun Cast Semi-HSS Rolls in Cold Mill Applications 359

A. Tremea, F. Bellicini, H. Fernandez, D. Agazzani

COLD SHEET ROLLING

Cold Rolling Technologies I

Chemical Removal of Internal Scale From HCl Pickle Liquor Pipeline 371

M.A. Nicholls, J. Wong

SIROLL CM-upgrading of Cold Rolling Tandem Mills to Continuous Operation 381

G. Finstermann, M. Landy

PLTCM Network Topologies 393

O. Gocan, G. Xinan

Strip Cleanliness, Extracting New Data From the Rolling Oil TGA Burn-off Curve 409

M.A. Nicholls

Cold Rolling Technologies II

Integrated New Downstream Facilities at Acciaieria Arvedi, Italy 417

M. Turchetto

Advanced Technologies for Skin Passing of Stainless Steel and Carbon Steel 425

S. Willems

Fit for the Future by Modernization – Latest Solutions for Tandem Cold Mills 435

R. Holz, F. Töpfer, K. Hoen

Taking Batch Annealing Optimization to the Next Level 447

M.W. McDonald

Efficient Coolant Removal From Metal Strip on Cold Mill/Temper Mill	461
--	------------

B. Schaming, J. Mondabaugh

GALVANIZING/TINPLATE AND ELECTROGALVANIZING

Advances in Zinc Coating Processing

Simulation of Strip Lateral Dynamics on Continuous Processing Lines	469
--	------------

Y. Ishigaki, K. Kabeya

A Method for Roll Alignment by Means of Inertial Technology Using PARALIGN[®]	481
---	------------

T.M. Coombes

Improving the Galvanizing Process – Electromagnetic Strip Stabilization and Complementary Solutions: eMASS, eWIPE, eBACS	485
---	------------

A. Jordan, S. Dombrowski, S. Devorich

Graphical Tool for Bottleneck Identification and Productivity Improvements in Galvanizing Lines	499
--	------------

K. Wright, M. Roberts

New Electrolytic Tinning Line and Tin-free Steel Line for BAOSTEEL, China	507
--	------------

K. Keiji, N. Yoshifumi, C. Shenghe, W. Wen

GALVANIZING

Advances in Hot-dip Coating Processing

Numerical Investigation of Air Knives with Multiple-impinging Slot Jets in Continuous Hot-dip Galvanizing	517
--	------------

P. Tamadonfar, J.R. McDermid, A.N. Hrymak, F.E. Goodwin

Analysis of Edge Buildup on Aluminized Steel Strip Using Computational Fluid Dynamics (CFD) and Metallography	527
--	------------

A. Elnenaey, C.R. Shastry

The Influence of Temperature and Aluminum Content on Galvannealed Coating	537
--	------------

X. Yu, H. Zhang

Mechanical Properties and Development of Hot-dip Coated Solid Solution Strengthened Low Carbon Steels for Automobiles	549
--	------------

G. Cheng, Y. Xie, L. Chen

PLATE ROLLING

Optimization of Plate Mill Heating and Rolling

Modern Process Models to Improve Product Quality on Plate Mills	555
R. Döll, W. Nothegger	
Modernization of the Heavy-plate Rolling Mill at Dongkuk	565
D. Ehlert, K. Pronold, F. Mehlich	
Maximized Asset Reliability and Performance Connected to PDA Inspection	577
J. Kurosky, K. Knaphus, M. Inns, J. Marquez	
The Plate Mill as a Metallurgical Tool	583
J. Lee, M. Steeper, M. Landy	

Quality Improvements in the Plate Mill

Two Hundred Years of Rolling on the Brandywine	589
R.P. Smith Jr.	
A Targeted Approach to Optimizing a Plate Mill	605
D. Bambury, S. Martin, J. Grzyb, D. Rosburg	
New Developments in Drive Trains for Roughing and Plate Mills	615
C. Sundermann, W. Malan, E. Jung, R. Gehle	
Tenova FlexyTech[®] Regenerative Flameless Burners	627
M. Ageno, M. Fantuzzi, A. Landi, U. Zanusso	
Descale System Design	639
S. DeMar	
Shape Improvement in Cut-to-length Line With an In-line Quarto Skinpass Mill	651
M. Derijcke, J.J. Servanton, R. Hequet	

ROD AND BAR ROLLING/PROJECT AND CONSTRUCTION MANAGEMENT

Long Product Projects

Project Management Models for Long Product Rolling Mills	661
A. Lainati, M. Arena	
Cash for Clunkers in the Reheat Furnace World	669
P. Arribalzaga, R. DaRocha	
Staying Ahead of the Curve – Beating the Commissioning Schedule for Continuous Slab Casters	677

G. Paulon, B.A. Kozak, P. Franco, D. Passantino, M. Fornasier

The 750,000 Stpy SBQ Rolling Mill, Part of the Complete Minimill at Nucor Steel Memphis Inc., USA	687
--	------------

L. Maestrutti, L. Gori, R. Cecutti

Drive Selection for Rolling Mills	695
--	------------

E. Thorstenson

ROD AND BAR ROLLING

Rolling Mill Advancements

New Stands for New Duties	701
----------------------------------	------------

E. Krieg, L. Cavaletti, M. Fabro

Quench and Tempering: An Unfamiliar Process in North America	707
---	------------

M. Allen

Quenched and Self-tempered Rebar – Process Overview, Layouts, Operational Parameters and Cost Savings	717
--	------------

S.-E. Lundberg

"The House of the World's Longest Billet" The New Micromill Danieli (MI.DA[®]) at CMC Steel Arizona: An Innovative Process for the Most Competitive Production of Rebar Product	727
---	------------

K. Keller, C. Travaglini, E. Cavinato, P. Losso

Totally Controlled Safety System With Zero Impact on Productivity for a Bar Rolling Mill	735
---	------------

M. Capitanio

Improvement of Wire Rods Processing Technology	751
---	------------

A. Takamori, T. Idesako

ROLLS

Roll Inspection Systems

Mechanical Study for Reducing Shell/Core Bond Separation of Duplex Cast Work Rolls for a Hot Strip Mill	757
--	------------

Y. Liu, J. Fan, M. Levick

Interpretation of UT and EC Results in Roll Testing	771
--	------------

M. Brandner, R.J.W.M. van Kollenburg

METALLURGY — STEELMAKING AND CASTING

Continuous Casting Metallurgy

Solidification and Dendrite Growth of Stainless Steel During Continuous Casting	781
.....	
L. Zhang	
Entrapment of Inclusions in Continuous Casting Billet: Industrial Observation and Modeling	793
.....	
Y. Wang, X. Zuo, L. Zhang, S. Li, A. Dong, L.N.W. Damoah	
Development of a Validated 3-D Thermal Model for ArcelorMittal Dofasco's No. 2 Continuous Caster Mold to Evaluate Design Improvements for High-speed Casting	807
.....	
N. Bontems, J. Sengupta, M. Trinh, A. Bally	
One Year Casting Experience for Rounds of High-quality Steel Grades at Nucor Memphis	817
.....	
C. Travaglini, N. Kapaj, M. Sattolo	

METALLURGY — PROCESSING, PRODUCTS AND APPLICATIONS

High-strength Steels

Improvement in Strip Temperature Control for High-strength Steel in a Radiant Tube Furnace	825
.....	
M. Deka, K.W. Johnson, S. Pandkar, F.M. Martins, J.F. Carr	
Rating Inclusions in an As-cast Carbon Steel	841
.....	
M. Faraji, R. Thackray, I. Todd, P. Tsakiroopoulos	
Development of Nano-size Precipitation Strengthening Hot-rolled Automobile Steels	849
.....	
C.-Y. Huang, H.-W. Yen, Y.-T. Pan, J.-R. Yang	
Implementation Experience of Danieli-CQETM at Hot Strip Mill	859
.....	
A. Mukhopadhyay, A. Polo	

Property Control

Microstructure and Mechanical Properties Comparison of Direct Quenched vs. Reaustenitized and Quenched Plate	869
.....	
N.C. Muckelroy, K.O. Findley	
A Non-Destructive Inspection System for Measuring Mechanical-technological Properties of Steel Grades	879
.....	
N. Gstöttenbauer, K.L. Feiste, J. Reisinger, G. Ossberger	
The UGR Process: The Danieli Innovative Process for a Low-cost Production of Seismic Concrete Reinforcement Steel	889
.....	
F. Toschi, C. Fabbro	

Effects of Continuous Cast Section Size on the Torsional Fatigue of 1050 Steel	897
---	------------

R.L. Cryderman

Introduction of R&D Group in Iron & Steel I

Value Creation Through R&D at ArcelorMittal	909
--	------------

R.C. Sussman

Recent Steel Research at the Department of Ferrous Metallurgy of RWTH Aachen University	919
--	------------

W. Bleck, G. Hessling, H.H. Dickert

Introduction of R&D Group in Iron & Steel II

The McMaster Steel Research Center: A Model for Industry-University Collaboration	931
--	------------

G.A. Irons, J.G. Thomson

General

Developments on a Web-based Metal Technology and Metal Information Network	935
---	------------

B. Li

Detection of Internal Defects Prior to Value-added Processes to Minimize Final Product Surface Defects	947
---	------------

J.S. Monks

Intercritically Austempered Steel	955
--	------------

R. Aristizábal, A. Haglund, A.P. Druschitz, M. Ostrander

Expert 5i—Quality Software Modules in the EPROMI Architecture for Increased Steel Production Efficiency	965
--	------------

R. Brunelli, C. Hope

Introduction of R&D Group in Iron & Steel III

CIVS – Center for Innovation Through Visualization and Simulation	973
--	------------

C.Q. Zhou, J. Moreland

The Working Group "Continuous Casting: Metallurgy and Materials (M2CC)" at Leoben University, Austria	977
--	------------

C. Bernhard, R. Pierer, S.C. Michelic	
Inauguration of IRIS, Institute of Research of Iron and Steel, for Sha Steel in China	987
T. Emi	
The McGill Metals Processing Center: A University-Industry Partnership for Process Metallurgy	993
R.I.L. Guthrie, M. Isac	

Grain Refinement and Precipitates

Investigation Into an HSM Finishing Stand Defect Which Generated FeO-type Lamination	997
M.R. Blankenau, O.V. Kostrubsky, R.H. Radzilowski	
Effect of Cerium on the Inoculation of Acicular Ferrite in Hot-rolled Fe-Mn-Al-Si-C Steel	1007
M.C. McGrath, D.C. Van Aken, V.L. Richards	
Production of Fine Grained As-rolled Structural Plate Steels	1019
D.G. Stalheim, R. Glodowski	
Fine Grain Practice—Revisited	1027
R.J. Glodowski	
Microalloy Precipitation in Hot Charged Slabs	1035
M.S. Dyer, J.G. Speer, D.K. Matlock, A.J. Shutts, S. Jansto, K. Xu, B.G. Thomas	

ENERGY AND UTILITIES

Energy Cost Savings, Strategies and Procedures

Oxygen-Enhanced Ladle Preheating Systems: Improved Tap-to-tap Cycle Time and Operating Cost Reductions	1047
J. Kelly, F. Dentella, A. Recanati, J. Visus, E. Miclo	
Description of a Simulation Method for Evaluating the Thermal Properties of Insulation Materials Used on an Evaporative Skid Cooling System in Reheat Furnaces	1055
P. Hughes, T. Skolnik	
A Multi-faceted Approach to Reducing Electricity Costs in the Steel Industry	1065
B.E. Zak	

ELECTRICAL APPLICATIONS

Sensors

VIP 08 Flatness Measurement and Control System 1069

A. Selent

In-Process Measurement of Organic Coating Thickness Using a Full Spectrum 1085

Infrared Sensor

C. Burnett, A. Quick, B. Harand

Innovative Design of New Laser-based Thickness Gauges for Inline Measurement of Strip Thickness 1091

A. Schultz, J. Mitchell

Power Distribution

Innovative Methods for Integrating Utility and Production Automation Systems 1097

M.E. Rourke

Drives and Control

Synchronous and Induction Motors for Main Drive Applications 1107

R. Tessendorf

Hybrid DC-DC-AC Main Drive for ILVA, Taranto Finishing Mill 1121

M.A. DeCarli, B. Jones, A. Giordano

Advanced and Reliable Drive Systems for the Rolling Mill Industry 1129

G. Bodden

An Industrial Power System Management for High-quality Uninterrupted Power Supply at Tata Steel 1139

A. Kar, D.M. Chowdhary, R. Jeloka

COMPUTER APPLICATIONS

Software Applications

Revamping MES and L3 Systems in the Iron and Steel Industry 1149

C. Fisher, P. Lagae, M. Mecozzi, E. La Bruna

Easy Access to Everything – Or How the Web Can Bring It All Together 1157

R.P. Gauvreau

A Lean Supply Chain Manufacturing Model 1167

G. Marzec, J. Hauge

Process Integration as a Tool for Decision-makers in the Steel Industry 1177

C. Ryman

PROJECT AND CONSTRUCTION MANAGEMENT

Project Tools and Techniques

Strategic Demolition Impact Analysis – A Plan for Aging Infrastructure	1187
N. Fox	
Utilizing High Definition 3-D Laser Scanning Technology to Obtain As-built Information to Streamline Retrofit Improvements	1197
K.A. Armstrong	
Role of the Industrial Engineer in Today’s Steel Producing Environment	1203
W.J. Zehe	
United States Steel Corporation Fairfield Works Coal Grinding Facility	1213
K.C. Wong, R. McCabe, G. Saul	

Achieving Project Excellence

Optimizing Indirect Production Cost	1227
M. McGee	

MAINTENANCE AND RELIABILITY

Reliability Projects

Danieli Maintenance Management System	1231
D. Brandolisio	
Running Your Maintenance Department as a Business	1245
R.A. Frascarelli	
Requirements on Standard Tests of Radial Shafts Seals for the Heavy Industry	1255
A. Koch, H.-W. Günther, G.J. Wüstenhagen	

Reliability Achievement Award

Electric Arc Furnace Tap Changers	1263
C. Birkbeck, C. Schwabe, S. Ryan	

Maintenance Technologies and Tools

Decreasing MTTR Using Split Seal Technology	1275
E.J. Rogalski	
Caster Nozzle Protection	1281
M.N. Allhands	

Advances in Bearing Reclamation	1287
<hr/>	
E. Wineland, R. Burdan, J. Oberlander	
Rotary Seals for Heavy-duty Applications – Technology Meets Customer Requirements	1291
<hr/>	
A. Koch, B. Baas, G.J. Wüstenhagen	

LUBRICATION AND HYDRAULICS

Fluids and Systems

Mitigation of Triboelectric Charging in Industrial Hydraulic and Lubricating Fluids – Case Studies in the Primary Metals Market Segment	1297
<hr/>	
M. Mahapatro	
Factors to Consider in the Selection of a Mill Grease	1305
<hr/>	
T. Vasiliw, H. Faci	
Novel Polyalkylene Glycol Based Hydraulic Fluids	1313
<hr/>	
G. Khemchandani, M. Greaves	
Care and Maintenance of Hydraulic Fluids	1323
<hr/>	
J. Schlobohm	
Application of an Intelligent Centralized Lubrication System in the Iron and Steel Industry	1333
<hr/>	
D. Wang, J. Zhao, K. Zhang, Y. Zhang, H. Zhao	

MATERIAL HANDLING

Material Handling Improvements

Optimized Material Flow in Plate Plants by Integration of Scheduling and Warehouse Management	1341
<hr/>	
H. Henning, J. Hackmann, I. Kunin, M. Diestel	
Automated Material Tracking via RFID Technologies	1345
<hr/>	
J.R. Franz	
Regulatory Impact on Diesel Engine Emissions	1355
<hr/>	
S. Weyant	

CRANES

**AC Variable Frequency Drive with Static Stepless Simulation Software
Outperforms Traditional Static Stepless Crane Control**

1359

A.S. Kureck

World-class Crane and Runway System for the 21st Century

1365

C.A. Totten
